Crossover 1.77KHz
Dimension HWD(mm) 605×380×320
Shipping HWD(mm) 670×465×405 (0.13CBM)
NW/GW(Kg) 20/23

JS series is designed for large indoor and outdoor applications, live performance, bar, club etc.

Loaded with JMM High Frequency driver and a 90 degree rotatable horn, it gives high dynamic acoustic pressure levels and sound clarity.

The rotatable horn also makes installation optimal.

The combination of the compression driver and rotatable horn improve the clarity of the mid-frequency between 1KHz-4KHz. So vocal clarity is improved.

Available as an Active Version (with Amp) Models: JS12A JS15A.
